SUMMARY

Motivated Full Stack Web Developer specializing in building responsive, high-quality web applications. Proficient in designing and deploying end-to-end solutions using HTML, CSS, JavaScript, React.js, Node.js, MongoDB, and SQL. Skilled in optimizing performance, troubleshooting issues, and collaborating with teams to achieve project goals while creating seamless user experiences.

EDUCATION

B.Tech Information Technology

Graduating May 2025

Affiliated to JNTUK

7.52/10 CGPA

Sir C.R.Reddy College of Engineering

Relevant coursework: Data Structures, Web Development, Cloud Computing, and Programming languages

TECHNICAL SKILLS

Design Tools: Figma **Frontend Technologies:** HTML, CSS, JavaScript, Bootstrap 5, React JS **Backend Technologies:** PHP, Node.js **Programming languages:** Python, Java, Javascript, C **Database Management:** MySQL, MongoDB **Hosting & Deployment:** AWS, Git, Netlify, Automation **APIs & Data Formats:** RESTful APIs, JSON **Soft Skills:** Cross-functional collaboration, end-to-end project management, problem-solving, troubleshooting

CERTIFICATIONS

Generative AI by Google Cloud

Nov 2024

Leveraged Vertex AI to deploy scalable machine learning models, reducing AI workflow time by 30%.

AWS Cloud Technical Essentials

Nov 2023

Designed efficient cloud solutions using EC2, S3, and RDS, enhancing application reliability by 20%.

Web Development

Aug 2023

Completed a certified training covering HTML, CSS, Bootstrap, PHP, React.js, and DBMS.

PROFESSIONAL EXPERIENCE

LST Bill Generator, Remote: Full Stack Developer

Jan 2024

- Built a web application for courier bill generation using PHP.
- Streamlined input processes, increasing operational efficiency by 15%.

Data Analysis Web App, Remote: Full Stack Developer

Mar 2024

- Developed a Python-based data analysis web app for one certain data analysis task, optimizing query performance by 20%.

ACADEMIC PROJECTS

StudentRequestHub

Nov 2023

An E-permission webpage for students to request permissions for various needs.

Password-Generator-Reactjs

May 2023

Generates passwords using characters, numbers, and symbols.

ACTIVITIES

Hackathon at Seshadri Rao Gudlavalleru Engineering College

Nov 2023

Participated in a 24-hour hackathon with 250 members, showcasing problem-solving and teamwork skills.

Department Project Expo Competition (2nd Year)

2022

Won 1st place in the department project expo competition, demonstrating innovative project development and presentation skills.

Coding Competition

2022

Secured 1st place in a coding competition, showcasing problem-solving abilities and proficiency in programming.

HOBBIES

Cricket Swimming
